We can stop Measure S.

I just got some junk mail claiming Measure S will “support affordable housing” and I’ve just about had it. It’s an outright lie—one of many the S campaign has spent millions putting out there.

We don’t have billboards all over town, but we have the facts and we have faith that LA will not be fooled by claims that don’t pass the sniff test.

Here are the facts. Please share them:

- Measure S will cost LA's economy nearly \$2 billion a year [1] 
- Measure S will cut over 12,000 good jobs and \$640 million in wages
every year [2] 
- Measure S will ban 90% of planned opportunity sites for new homeless
and affordable housing in LA [3] 
- Measure S will cost taxpayers \$70 million a year that could be used for
schools, parks, libraries, etc. [4] 
- The Measure S "2-year" housing ban could last up to 10 years or
longer [5] 

See a pattern here? The Measure S campaign wants this to be a referendum on City Hall corruption. But it's a housing ban in reformer's clothing.

The next time you get a call from the Measure S campaign, or one of their representatives comes to your door and says it does something good for affordable housing, just ask "how?" You'll get a different non-answer every time.

They can say it, but they can't explain it—because it's just not true. This is why the LA Times, Mayor Garcetti and the largest coalition in LA history all oppose Measure S.

Share the facts and help us stop this disaster of a ban. Vote NO on Measure S, March 7.

Thanks,

Mike
